

CHAMPAGNE
ANDRÉ ROBERT

ROSÉ

A Romantic Champagne

Terroir

Two grape varieties so two kinds of soil. Limestone, chalky soil for the Chardonnay. And clay-limestone soil on south-facing slopes for the Pinot Meunier grapes.

Method

Grape variety : Pinot Meunier and Chardonnay grapes
Pink Champagne comes from the blending of these 2 grape varieties. You can instantly recognize our Rosé due to its elegant bubbles and salmon hue.

Style

Mainly made up of white chardonnay grapes, nevertheless the Pinot Meunier contribution sets the tone. A light salmon hue and powerful nose fringing on black fruit – blackcurrant, blackberry, cherry – and a hint of prune. In the mouth the opposite happens with dominant chardonnay pedigree and freshness.

Serving

Goes perfectly well with a gratin of red fruits or simply a fruit tart. Or else as an ideal aperitif.
